Titel	Avengers 4 Adds Emma Fuhrmann As An Older Cassie Lang
Dato	18-04-2018
Beskrivelse	<p>An older version of Ant-Man's daughter, Cassie Lang, will be in Avengers 4. All eyes are on the Marvel Cinematic Universe right now. Marvel Studios is just a few days away from the world premiere of Avengers: Infinity War, and then just a few more from its global release. Fans know that the movie will see Thanos finally arrive to torment every hero in the MCU. But, directors Joe and Anthony Russo are asking everyone to avoid spoiling the movie's plot at all costs, which only adds to the uncertainty of Avengers 4.</p> <p>Thanks to set photos, it is clear that Avengers 4 isn't going to be structured like the average MCU movie. It looks like it's dealing with time travel or alternate dimensions. Now there's a bit of casting that should add even more evidence to support either theory.</p> <p>The interesting part to the casting is that Abby Ryder Fortson already played Cassie Lang in Ant-Man, and is lined up to do so again this summer in Ant-Man & The Wasp. Despite making two appearances already, Fortson is just 10-years-old. Fuhrmann on the other hand is 16 (she will be 17 when Avengers 4 releases), so it's a significant gap. The age difference indicates at this point that either Ant-Man 2 takes place several years before Avengers 4 or that time/dimensional travel is involved.</p> <p>If Avengers 4 ends with Fuhrmann taking over this role, it could further show where the MCU is moving. She was a member of the Young Avengers after the death of Scott and has size-changing abilities just like him. There was previous speculation that Avengers 4 could introduce Wiccan and Speed too, who are also members of the Young Avengers. Not only them, but Ryan Coogler considered using Patriot in Black Panther, so this team could very well be part of the MCU's future.</p> <p>Fuhrmann's role as Cassie Lang only adds another twist to Avengers 4, and one we likely won't know the answer to anytime soon. Once Infinity War is out and the big picture focus shifts to what's next, maybe then we will get more information on what Avengers 4 holds, and how Cassie Lang factors in.</p>

Titel	Solo Star Excited to Be 'First Woman of Color' With Major Star Wars Role
Dato	18-04-2018
Beskrivelse	<p>Thandie Newton opens up about being one of the first women of color to take on a lead role in a Star Wars film via playing Val in the upcoming Solo: A Star Wars Story prequel. Starring Alden Ehrenreich as the younger iteration of Harrison Ford's iconic galactic smuggler, the movie dives deep into the criminal underworld of the galaxy far, far away during the Empire's height of power.</p> <p>Directed by Ron Howard, who took over helming duties from original directors Phil Lord and Chris Miller, not much is known regarding the narrative specifics of the film. But based on what fans have seen from previews so far, it seems like it explores everything fans have come to love about how Han Solo came to be – from winning his beloved Millennium Falcon from Lando Calrissian (played by Donald Glover) to his first heist job joining Tobias Beckett's (Woody Harrelson) team and meeting longtime member, Val.</p> <p>"I'm the first woman of colour to have a prominent role in the Star Wars legacy. There have been others with one line and Lupita Nyong'o was a computer-generated character [in The Force Awakens and The Last Jedi], but you didn't get to see the colour of her skin. I'm the first. I'm going to have a toy and everything. It's exciting, but that's all I can say. It is a big deal."</p> <p>Solo Star Wars Story Poster Cropped Solo Star Excited to Be First Woman of Color With Major Star Wars Role</p> <p>It's still unknown how Newton's Val really fits in the film's narrative, and with the trailers teasing of backstabbing and betrayal among members of Beckett's squad, she could be anything from a friend to a foe. Solo co-writer Jon Kasdan previously said that Val isn't initially sold on Han joining Beckett's squad, but she eventually warms up to him and their relationship goes in an "interesting direction." Given this, it's possible she might reluctantly take on the role as a surrogate mother to the beloved scoundrel. Regardless of the true nature of Val's character, it's great to see an actress of such caliber play a strong capable woman in a male-dominated franchise such as Star Wars.</p> <p>While Newton's casting is a significant leap towards diversifying Star Wars in front of the camera – especially in addition to Kelly Marie Tran's role as Rose Tico in Star Wars: The Last Jedi – a similar phenomenon has also taken place behind-the-scenes with the addition of Victoria Mahoney as a second unit director on the upcoming Star Wars 9. This makes her the first black woman directing Star Wars as she starts work on the upcoming J.J. Abrams' directed/written movie. Prior to nabbing the job, Mahoney previously worked</p>

	on Queen Sugar with Ava DuVernay, who apparently helped her land the gig.

Titel	The Cool Way Dwayne Johnson Surprised One Young Rampage Fan
Dato	17-04-2018
Beskrivelse	<p>Rampage opened wide in theaters this weekend, and a lot of people went out and saw the movie. At one special screening, Dwayne Johnson even showed up to surprise fans. One fan in particular got more than he bargained for when one of the members of his party told Dwayne Johnson it was the kid's 12th birthday. The ever-generous The Rock surprised the young man by singing "Happy Birthday," and you can enjoy the experience, in all its low quality camera glory, below.</p> <p>The young man, Vinny, reveals to Dwayne Johnson he just turned 12, and Johnson responds by belting out the formerly copyrighted lyrics to "Happy Birthday." He then invites the young man onstage, shakes his hand and talks to him about his favorite part of the movie which -- minor spoiler---involves Lizzie coming out of the water, a moment Johnson refers to as "badass."</p> <p>All in all, it was likely a movie screening the young man will remember for the rest of his life. In addition, it's a moment that stuck out for Dwayne Johnson, too, as the actor took to social media to talk about how surprising the fans is a truly enjoyable part of the job. This isn't the first time The Rock has done something of this ilk, either. The Rampage star has been there for fans of all ages, and ahead of the Jumanji: Welcome to the Jungle release, he even surprised a terminally ill grandmother who kept a cardboard cutout of him by her bed. Following the release of San Andreas, Dwayne Johnson even invited the hero boy who learned CPR from the movie and saved his sibling's life to come to the set of Skyscraper to check out some movie magic. So he goes beyond social media fairly often to engage with fans.</p> <p>Even if The Rock hadn't attended a showing of the brand new action movie, the numbers for the flick were still pretty solid. Opening weekend saw Rampage edge out ahead of popular horror flick A Quiet Place and bring in \$34.5 million at the domestic box office. It's also pulled in an additional \$114 million worldwide, and is on its way to making Warner Bros. at least a decent amount of money. Sure, it's cool that Dwayne Johnson also showed up at a movie screening and that became a viral memorable moment for the celebrity, but the trailers and word of mouth surrounding the video game adaptation did a lot on their own to get butts into seats.</p> <p>Speaking of Rampage being a video game adaptation, the movie is currently the highest-reviewed video game movie of all time, edging out the recent Tomb Raider reboot with a positive Rotten Tomatoes score. That could</p>

	change, but it's clear that Rampage has been a hit with a certain number of critics, and with an 81% audience score, it looks as if audiences, including young Vinny, are liking it a lot.

Titel	Zachary Levi Shares New Buff Shazam Look, Henry Cavill In Full Support
Dato	17-04-2018
Beskrivelse	<p>A lot has been made of Zachary Levi's physique now that he has gotten himself in superhero shape for Shazam! While some are being critical of the actor, he's now received the endorsement of another on-screen hero. Levi posted another picture of himself to social media recently mid-workout, showing off that the guy has put in the work to be a hero on the big screen. Nearly every comment has been supportive, including some from other who play superheroes themselves. Check it out.</p> <p>There are more comments on this Instagram image that we know what to do with, but buried among all the fans are a couple of other actors complementing Zachary Levi on his look. One is Arrow star Stephen Amell who simply posts an emoji with hears in its eyes, but another of the commentators is Levi's DC movie colleague, Superman himself, Henry Cavill, who thinks Levi looks great. Cavill writes...</p> <p>As somebody who almost certainly goes through the same training regiment that Zachary Levi is currently undergoing, which Levi jokes about the complexity of in the post, Henry Cavill certainly understands the work that goes into it and has only words of support for the end result.</p> <p>The question of Zachary Levi's actual physical condition has been one up for debate following some leaked set photos that many felt implied that Zachary Levi was wearing a padded suit rather than being actually muscled. There's really no question now that the actor has added some serious bulk. The muscles look real, though Levi seems to claim the tan is not, and is the result of an Instagram filter. Apparently, there are some special effects being used here after all.</p> <p>Of course, what's even better than Henry Cavill's comment is Zachary Levi's response to the actor, when he tells the big screen Superman that the workout and the diet aren't that bad, the hard part is learning how to stare off into the middle distance for these pictures</p> <p>Honestly, the nowhere stare has been the biggest challenge. But 2-3 hours a day of 'Nowhere Stare' practice has really paid off.</p> <p>It does certainly seem that staring off into nowhere is a required aspect of all workout shots for some reason. Not only do you have to look like a brick wall,</p>

	<p>but it's required that you act like it's no big deal.</p>
--	--

	<p>Zachary Levi's sense of humor will likely serve him well in Shazam! While the film will be another in a long line of superhero action films, it's premise is that a young boy gains the ability to transform into a superhero, a setup that is inherently humorous, and thus we expect Shazam! to be funnier than your average superhero movie, though likely more family-friendly than Deadpool.</p>
